

To attend the SMQD Monthly Club all supplies need to be purchased @ [debbieoneal.closetomyheart.com](http://debbieoneal.closetomyheart.com) shop. Links provided below for each month's supplies required. Purchase monthly or all together to save on shipping, its up to you. You will be added to each month's list of attendees for that month as those supplies are purchased.

- The products in the new CTMH catalog are wonderful but set up a bit different than the way we have been using them in the past scrapbook club. Basically we are making up our own scrapbook kit for September and October from items in the new catalog so it will be important to purchase exactly what is listed for each month in order to complete the layouts. We will be spreading some of these supplies over to other months to help keep costs down over all.
- We will also be using more Cricut images from the Cricut Access Library in the club so additional cardstock might be required as suggested in the cut files for that month. These will typically be perfect for using scrap cardstock you already have on hand...like black, red, blue, yellow, green, etc. so you don't have to purchase full sheets of cardstock.
- All scrapbook months will require basic supplies such as various adhesives: tape runner, foam tape, glue pen, scissors, etc.
